View your KML directly on a google map

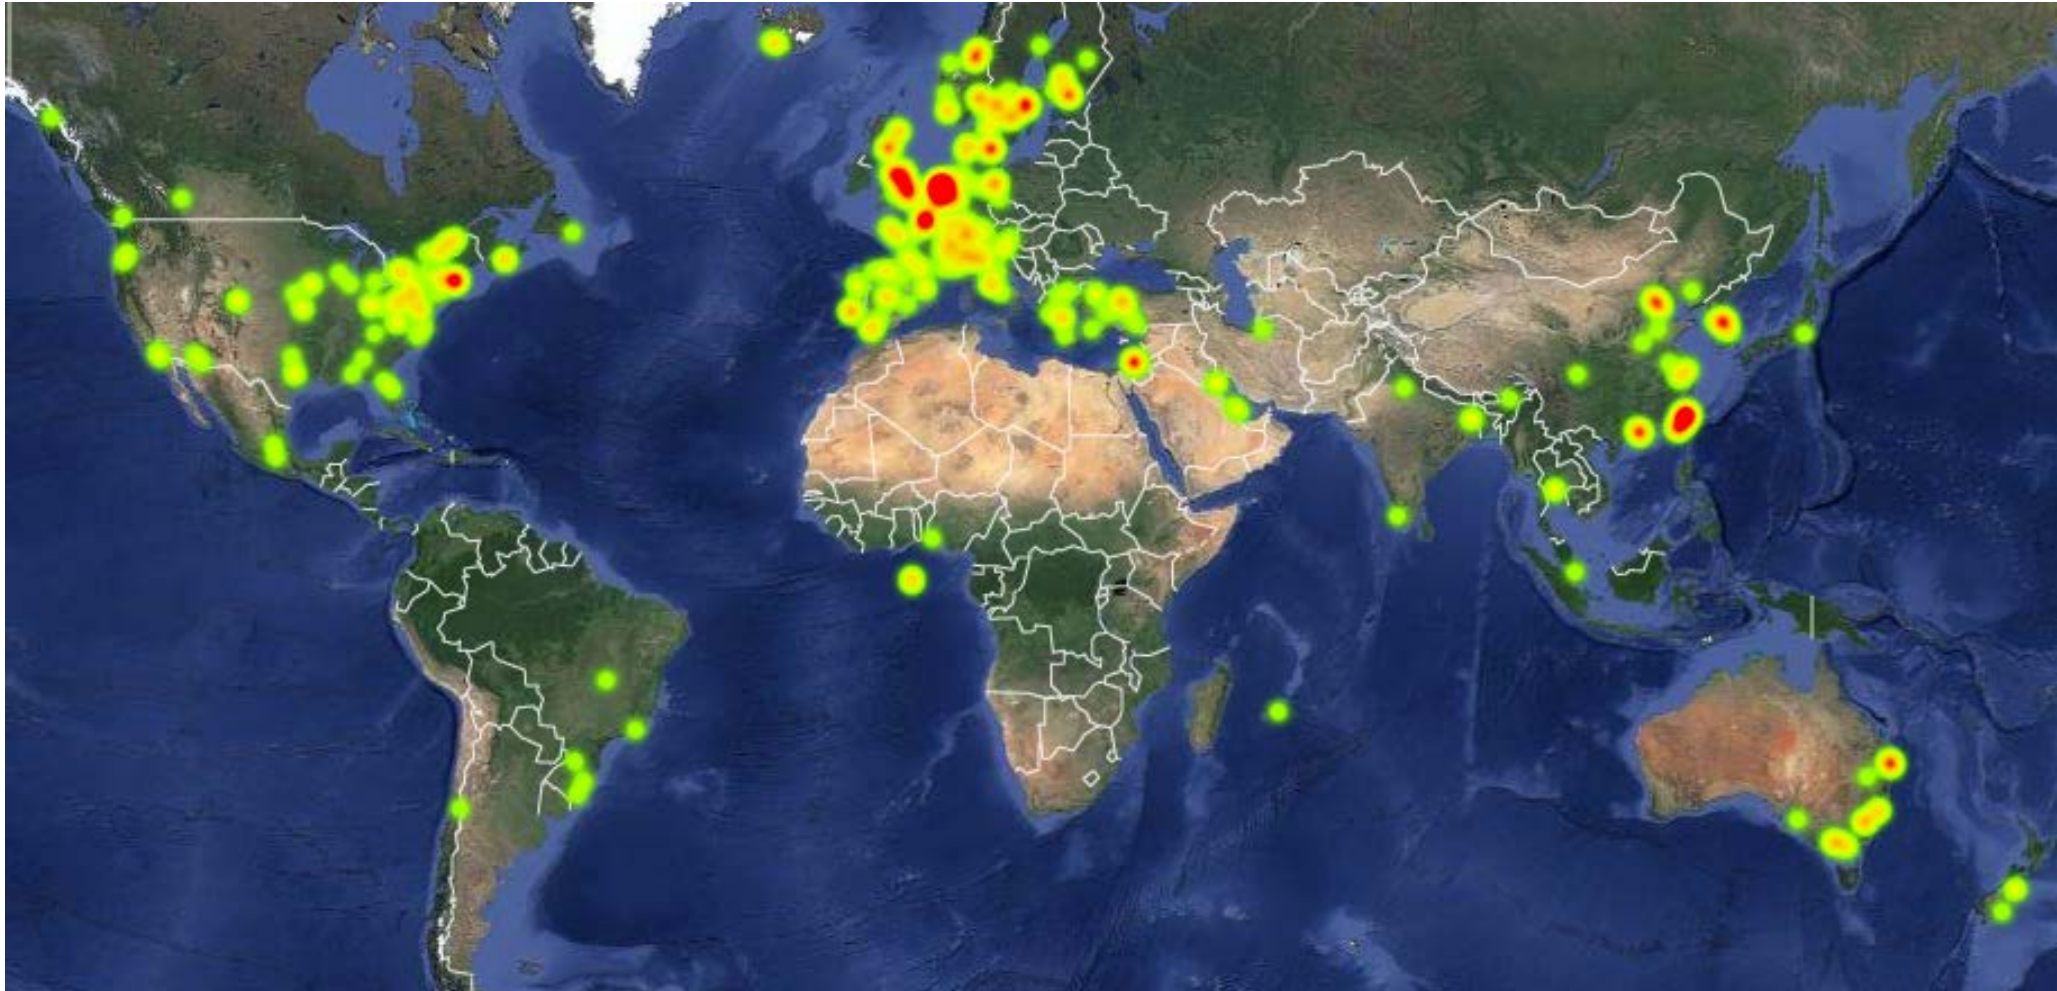

Type your KML in here

```
<?xml version='1.0' encoding='UTF-8'?>
<kml
xmlns='http://www.opengis.net/kml/2.2'
>
  <Document>
    <name>master-
medium</name>
    <Style id='Style2-
point-1'>
      <IconStyle>
        <color>ff0000ff</color>
        <scale>1.0</scale>
      </IconStyle>
      <Icon>
        <href>http://maps.google.com/mapfiles/
kml/shapes/placemark_circle.png</href>
      </Icon>
    </Document>
  </kml>
```

Show it on the map!
